Mahmoud Salah

Junior Software Engineer

■ Mahmoud23199@gmail.com

Mahmoud23199 Mahmoud-Salah99

Military Status: Completed

• Cairo - Egypt (Ready to relocate) **2** 20 1014760750 / 01550987752

Profile

Junior Software Engineer looking for a challenging career with a progressive organization that allows me to capitalize on my technical skills and abilities in web development using .NET technologies.

Internship

4-Month intensive code camp (ICC):

Jan 2024 - Present

- Information Technology Institute(ITI), Port Said Branch
- Track: Full Stack Web Development .Net

Education

Bachelor of Computer Science:

Jul 2022

- Faculty of Computer and Information Science (CSYS Department), Ain Shams University, Egypt
- GP Projects Grade: Excellent

GP Projects:

- Smart cap for the visually impaired
- Technologies: Implemented NumPy and Pandas libraries for data analysis Engineered a machine learning model using TensorFlow, Viola-Jones, OpenCV, Putty, and VNC-Viewer.

Technical Skills

Programming languages:

Databases:

Tools:

C#, C++, C, JavaScript, ECMAScript 6,

Python, Kotlin, Java

SQL server, MySQL, OrcleDB

Visual Studio, Visual Studio Code, SQL Server Studio, Oracle

Pycharm, Android Studio

Backend Technologies:

ASP.NET (.NET MVC - .NET Core,

HTML, HTML5, CSS, CSS3, Bootstrap

Restful APIs)

Others:

Conceptual Knowledge:

Frontend Technologies:

Entity Framework, Git-Github, Data structure, Object-oriented, Algorithms

Unit testing, LINQ

Work Experience

Freelance Android Native Shop Management app:

Jul 2021

00

Technologies: Engineered and implemented a Retrofit-based MVVM architecture for Android applications, optimizing SQL Lite and Room database utilization; leveraged OOP principles and efficient data structures to enhance performance and scalability

Egypt Army:

IT Specialist

Dec 2022 - Oct 2023

Projects

Crud operations / Web API

00

Technologies: (C#, EF, LINQ, SQL, JS, ECMAScript 6, Bootstrap, CSS3, HTML5)

Examination System / Windows Form Application

Technologies: (C#, EF, LINQ, SQL, Windows Form Application)

Responsive Pizza-Hut Website

• Technologies: (Bootstrap, CSS3, HTML5)

Food Talabat application

00

• Technologies: Rest API - Retrofit - MVVM - SQL Lite - Room database - Firebase - OOP - data structure

Line follower Robot using Arduino

00

 Line follower robot senses black line by using a sensor and then sends a signal to Arduino then it drives the motor according to the sensor output

Courses

- Data Structures and Algorithms (in Depth using C#), Udemy, Dec 2023
- Version Control (Git Github), Almdrasa, Feb 2024
- HTML and CSS, Coursera, Jun 2023
- Object Oriented Programming, YouTube
- Database, Coursera, March 2023
- Mobile Native(Java-Kotlin), Udemy, Sep 2021
- Mobile Native, ITI Mahara tech, Oct 2021

Personal skills

- Excel in detail checking and achieving results with accuracy and precision
- Demonstrate a systematic approach to problem-solving
- Utilize a variety of analytical techniques to solve Problems
- Communicate openly, forcefully, and clearly, excelling in interactions with individuals and small groups
- Makes decisions with confidence
- Show eagerness and capacity to learn, demonstrating an exceptional ability to grasp new methods quickly

ACHIEVEMENTS

- Hacker Rank SQL Certificates basic (It includes simple queries, relationships, and aggregators.)
- Hacker Rank SQL Certificates intermediate (It includes complex joins, unions, and sub-queries.)
- Hacker Rank C# Certificates basic: understanding the structure of C# programs, types, and Variables, basic OOP, Properties and Indexers, Collections, Exception handling

EXTRACURRICULAR ACTIVITIES

- Participant at "ACM Asics": Sep 2018
- I attended training in problem-solving.
- I was part of a team responsible for solving problems in code forces
- Problem solver (solve about 100 problems)

Language Skills:

- Arabic
- English
